☎ +91 80191 37393 @ sarojnamabathula@gmail.com in LinkedIn GitHub 📍 Vizianagaram, A.P

EDUCATION

JNTU-GV College of Engineering Vizianagaram

B.Tech in Information Technology; GPA: 7.85

Vizianagaram, A.P

August 2023 – Present

Balaji Junior College

Intermediate in MPC stream marks: 943

RAJAMAHENDRAVARAM, A.P

2021 – 2023

Maharshi vidya niketan

marks: 585

Atreyapuram, A.P

2020– 2021

SELECTED PROJECTS

Rule-Based Suspicious Activity Detector

Python — OpenCV — MediaPipe — YOLOv8 — NumPy

- Built a Computer Vision-based monitoring system to detect suspicious activities using Rule-Based AI.
- Implemented face presence verification, phone detection, and multi-person monitoring with automated alerts.
- Developed logging, evidence capture, and JSON-based incident reporting to improve monitoring reliability.

AI Interview Decision Engine

Python — FastAPI — REST APIs — Pytest

- Built a rule-based decision engine to manage AI interview workflows using evaluation scores and contextual signals.
- Developed FastAPI APIs for intelligent action selection (`next_question`, `follow_up`, `end_interview`) with explainable decision logic.
- Implemented simulation testing, edge-case handling, and JSON-based responses to ensure reliable interview progression.

Logistic Delivery time Prediction Project

Python — Numpy — Scikit-learn — XGBoost — Streamlit — Matplotlib

- Implemented a machine learning model to predict delivery time using logistics data, incorporating data preprocessing, feature engineering, and exploratory data analysis. Evaluated multiple regression models including Random Forest and XGBoost, selected the best-performing model, and deployed it as an interactive Streamlit web application for real-time predictions.

Membership Management System

JSP — Servlets — HTML — CSS — MySQL

- Developed a responsive Membership Management System with CRUD operations, database integration, and secure authentication using JSP, Servlets, HTML, CSS, and MySQL.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, JavaScript
- **Machine Learning AI:** Scikit-Learn, XGBoost, Computer Vision, Rule-Based AI, Data Preprocessing, Feature Engineering
- **Web Technologies:** HTML, CSS, JavaScript, JSP, Servlets
- **Databases:** MySQL, PostgreSQL
- **Tools Frameworks:** Git, GitHub, VS Code, Jupyter Notebook, Apache Tomcat, JDBC, Streamlit, OpenCV, MediaPipe, YOLOv8
- **Coursework:** Data Structures Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Data Science with Python

CERTIFICATIONS

- Coursera : Google AI Essentials
- Coursera : Google Prompting Essentials

POSITION OF RESPONSIBILITY

Treasurer, Yukta DevSquad Club – JNTU-GV

2025 – 2026

- Managed budgeting and resource allocation for technical workshops and events, Collaborated with faculty and student teams to ensure cost-effective execution of technical activities.
